EDITORIAL

EN. The Louis De Poortere philosophy is based on a simple concept: we aim to be more than just a manufacturer of carpets. In entering into home decorating, we increased our creativity to meet the demands of modern interior design. This has driven us to transform the generic and ordinary into the magical and luxurious. Because people are increasingly seeking beauty, elegance, value and comfort for their homes, our designers and technicians have created entire collections that are modern, accessible, and designed to bring you the utmost pleasure. Because interior design has become increasingly specific and tastes more assured, we have developed bold concepts that are simple and attractive and will enable you to achieve ultimate sophistication in your flooring choice. At Louis De Poortere, you will find rugs, carpets, stair runners and even bordered rugs, which you could freely mix and match to make decorating your dream home a possibility. Our passion is to offer you this pleasure.

Louis De Poortere Team

FR. La philosophie Louis De Poortere repose sur un concept simple : nous désirons être plus qu'un fabricant de tapis. En se référant à la décoration d'intérieur, nous avons dû accroître notre créativité pour répondre à vos exigences esthétiques. Nous nous efforçons de transformer le générique en magique. Parce que les gens recherchent de plus en plus la beauté, l'élégance, la valeur et le confort pour leur maison, nos designers et techniciens ont créé des collections variées, modernes et accessibles, et conçues pour vous apporter une belle satisfaction. Parce que vos demandes sont de plus en plus pointues et vos goûts plus affirmés, nous avons développé des concepts audacieux, simples et attractifs qui vous permettront d'atteindre facilement le summum de la sophistication pour le revêtement de vos sols. Chez Louis De Poortere, vous trouverez des tapis, des moquettes, des passages d'escalier et même des tapis à bordures, que vous pourrez librement assortir afin de faire de votre décoration "Home Sweet Home" un pur plaisir. Notre passion est de vous offrir ce plaisir.

WHY WILTON ?

Wilton is a traditional weaving technique that was invented at the end of the 17th century. Since then, this weaving method has remained unmatched for the manufacture of quality rugs and carpets.

The Wilton weave is an extremely demanding technique, but in terms of durability and long-term use, it brings the best results.

The triple shot technique allows for a very strong anchoring of the pile. It is the only one to guarantee long-term quality, especially for areas such as stairs and hallways.

Wilton carpets provide a feeling of comfort linked to the overall refined texture of the finished product.

Traditional Jacquard mechanisms allow direct integration of designs into the carpet.

Wilton offers the possibility of weaving in a large range of widths, from 60 CM (24") right up to 457 CM (15').

The Jacquard mechanisms installed on each width offer great flexibility of design.

The use of narrow widths offers the ability to fully express your creativity in your floorcovering without necessarily having to weave large quantities of carpet.

6 REASONS TO CHOOSE LDP ?

Over 100 years of experience in the textile industry.

A fully integrated manufacturing model: yarn, spinning, dyeing, winders and beams, weaving, finishing line and manual finishing.

We have the largest fleet of looms in the world, offering all possible widths.

Fully digitised weaving machines with electronic jacquards.

Years of experience in wool management and quality expertise.

An original and tailor-made solution from development to delivery and installation.

A strategy orientated towards ecology. From 2024, Louis De Poortere will be a green company.

POURQUOI LE WILTON ?

Le wilton est une technique de tissage traditionnelle, inventée à la fin du 17^e siècle. Depuis lors, cette méthode de tissage reste inégalée pour la fabrication de tapis et moquette de qualité.

Le wilton est une technique extrêmement exigeante, mais en terme de durabilité et de conservation d'usage à long terme, elle apporte les meilleurs résultats.

La double duité permet un ancrage du poil très résistant. Elle est la seule technique qui garantit une qualité sur les nez de marches à long terme.

Les moquettes wilton offrent une sensation de confort liée à la contexture générale du produit fini.

Les mécaniques jacquard traditionnelles permettent une intégration directe du dessin dans le tapis.

Le wilton offre la possibilité de tisser dans un nombre impressionnant de taille en largeur, de 60 CM à 457 CM.

Les mécaniques jacquards installées sur chaque largeur offrent une grande flexibilité.

L'usage de petites largeurs permettent à la créativité de s'exprimer pleinement sans nécessairement devoir tisser de grandes quantités de tapis.

6 RAISONS DE CHOISIR LDP ?

Plus de 100 ans d'expérience dans l'industrie textile.

Modèle de fabrication entièrement intégré : fil, filature, teinturerie, bobinoirs et ensouples, tissage, ligne de finition et finition manuelle.

Nous disposons du plus grand parc de métiers à tisser au monde offrant toutes les largeurs possibles.

Métiers à tisser complètement digitalisés avec jacquards électroniques.

Des années d'expérience dans la gestion de la laine et expertise de qualité.

Apporte une réponse originale et sur-mesure dès le départ du développement jusqu'à la livraison et la pose.

Stratégie orientée vers l'écologie. À partir de 2024 Louis De Poortere sera une entreprise verte avec son logo rouge !

Over the years, the name Richelieu Velours has become a luxury brand known worldwide and is the pinnacle of wool velvet carpet. In wall-to-wall or narrow widths for stairs, the Richelieu collection is synonymous with versatility and performance and has grown to the extensive range you see today. It is now available in 144 colours each supported by stock of dyed yarns. And for stairs, it is made of triple shot to improve performance.

Au fil des années, le nom Richelieu Velours est devenu une marque. C'est la référence en matière de velours laine. En moquette ou en petite largeur pour escalier, le Richelieu a agrandi sa famille. Il se décline maintenant en 144 couleurs suivies de stock. Et pour les escaliers uniquement, il est fabriqué en double duité pour en améliorer les performances, encore.

### WALL-TO-WALL

---

MUR À MUR

**EN.** Louis de Poortere has a flexible production facility that makes it possible to offer bespoke carpets. This is a unique service that allows you to tailor your carpet to fit your project. In addition, we have in-house designers with remarkable technical expertise to guide you through the process. This tailor-made service makes it is possible for you to choose your own colour, design, quality, and width.

Our custom-made widths make it easy to adapt your design to small or large spaces. In the narrow widths creativity and flexibility combine perfectly to create wall-to-wall carpets, either fitted by experts using traditional methods, or assembled into carpets in our tailoring workshop by craftsmen who have fitting expertise.

**FR.** Louis de Poortere dispose d'un outil de production extrêmement flexible qui permet d'offrir des moquettes personnalisées. **C'est le spécial.** De plus, nous disposons de designers internes avec une expertise technique remarquable. Il est possible de choisir son coloris, son dessin, sa qualité et sa largeur. C'est un programme sur mesure offert pour les plus beaux des produits en revêtement de sol.

Le summum du goût est atteint avec les petites largeurs sur mesure. Créativité et flexibilité s'allient remarquablement pour créer des moquettes "mur à mur" posées par des experts de façon traditionnelle ou encore assemblées en tapis dans notre atelier de confection avec des artisans experts en raccord.

## **WHY CHOOSE NARROW WIDTHS IN SPECIAL ?**

A narrow width weaving loom is extremely flexible compared to larger looms.

This makes it possible to completely customise the choice of designs and colour for small quantities of carpets.

Our narrow width special programme makes it possible to create exclusive staircase carpets using the unique triple shot technique.

Narrow widths also allow you to combine the same design in staircase, corridor and assembled broadloom carpet.

## **POURQUOI CHOISIR LES PETITES LARGEURS EN SPÉCIAL ?**

Le montage d'un métier à tisser en petite largeur est extrêmement flexible comparé au montage d'une grande largeur.

Ceci permet donc de complètement personnaliser le choix de dessins et de couleurs pour des petites quantités de tapis.

La petite largeur en spécial permet de créer des tapis d'escalier exclusifs avec la qualité unique double duite.

La petite largeur en "mur à mur" posée par des experts redonne ses lettres de noblesse aux magnifiques moquettes dessinées. Les joints de cotés en sont la merveilleuse signature.

Les petites largeurs permettent de combiner dans un même dessin, escalier, couloir et moquette.
